Welcome to Clarkshots Photography. I am a photographer with over 30 years of documenting the life going on around me. Life as it happens, capturing the moment..a blink of the eye, leaving a well told story and many wonderful memories.

It remains as it has always been..a celebration of "what is".

I am based in Colorado, just south of Denver, but my motto is "Have camera, will travel"

I also can provide medical consultation and support for remote assignments. I have a cadre of medical professionals with years of experience in Emergency Medicine and unique working environments. We have personnel for training, outfitting and on site support.

Ethiopia 11/10 A trip to the Tigray region of Ethiopia on assignment with Gene Richards for Norvatis. Two weeks in the frontier outside the small town of Alamata looking at life with Malaria and new medications.

Travels with Ed An on-going project, with scenes from an over 20 year friendship and professional mentor ship with photojournalist Eugene Richards(www.EugeneRichards.com) Images from photo shoots all over the country and world for NY Times magazine, National Geographic, Esquire, Miller Beer, Nike, British Levis, National Audubon Society magazine, Dana Farber Cancer Institute, Time and Norvatis to name a few. We have also made many trips on our own to New Mexico, Nebraska, Colorado, Wyoming, North Dakota and Kansas documenting the vanishing evidence of past lives lived on the high plains, culminating in his new work The Blue Room, published by Phaidon Press.

For those in the market, please take a look at my Wedding and Portrait Galleries. Reasonable prices, no time limits, all the images are yours. I shoot weddings in a documentary style in order to make the story timely and unforgettable. I also can offer printing services. Let's talk about your needs and ideas on how best to document your moment.
